

15/9/2011

Dear Sheba,

I have only one word to describe this place. This is a "Temple" and people treating here along with your kind presence are like messengers of almighty.

My suffering of severe bone pain in my right arm was troubling me since last few months. The pain was so severe that I didn't even release what treatment I will be undertaking at Ashwini. I had no hope of cure in the beginning but after two days of ailment and curing here, a realm of hope and confidence came across. My pain and suffering dropped down to bearable levels and I could feel the difference.

Today is my 14<sup>th</sup> day here and I feel as if I am confident now that I will be fine and completely mobile in next few months with continued medication.

I would love to thank all the staff here and I sincerely pray to almighty to give the staff and Mrs. Sheba divine and magical abilities to cure the entire human cause.

After all this is not just a hospital but a temple in true sense.

Warm Wishes

Parathi Krishna
