Dear Dr. Sheeba & Staff members

After a long stay of 29 days finally the day has arrived to bid good bye to Ashwini Hospital & Research Centre. Although the departure is becoming difficult because of the emotional connect which has developed all these while.

Just to brief, I had come here after a long string of disappointments from various hospitals in Mumbai providing allopathic medicines. My life had taken dependancy on strong pain killers resulting into severe acidity issues. I landed this place with utmost confidence in my heart but at times also had the fear "what if it fails" because this was to me a last ray of hope.

I am glad that after all with proper treatment, confidence of my doctor, her positive talks and dedicated team of staff namely Binu Bhai and ever smiling Mijji & Madhvi, I have come out of the issue to a large extent. "No pain killers" ..... Wow !!

My special mention goes to the staff as they are so humble, caring, soft spoken yet guiding and this one key word to remember is "Vishvasam". I am very sure I would be as healthy & normal as I was after proper rest & improved life style.

All the Best & Kudos to the team headed by Dr. Sheeba. Thank U from the bottom of my heart!

A Big  
Heartfelt  
Thanks  
Keep smiling.

Sumana  
Ranjian
