Dear doctor,  
After talking to you I realised the seriousness of my pain & how important it is to get the right treatment at right time which was very confusing in my case. To go for allopathic or ayurvedic? But after meeting you & consulting you I decided to go for the 10 days treatment, & with your concern it that I needed further treatment of 4 more days & basti, virechan but right now I could not do basti & virechan since my child is very small. But I definitely will do in future.

Thanks to you doctor for suggesting me the right treatment which had benefitted a lot in my knee, whole back pain, in short according to you suffering from initial arthritis / Sandhivata. Overall the staff is very good

Both Sandhya & Anita were very good, caring & dedicated to their work in the during the treatment. My pain has been reduced & feeling much better than before. Will continue medicines as per ur instruction

Thank you.
